

Life is a fairy tale

Got myself a pistol, got myself a gun
So don't you forget me
Got myself a fistful, now I want some fun
So don't you forget me
Got my window open, got some air inside
So don't you forget me
Now my heart is broken, now I need some...
So don't you forget me

Because life is a fairy tale
And it's good

Cheeses are forever, worms have lost their legs
So don't you forget me
Wallpaper is clever, giving birth to eggs
So don't you forget me
Chair on hairy mountain reaching to the shore
So don't you forget me
Water in the fountain being such a bore
So don't you forget me

Because life is a fairy tale
Yes life is a fairy tale
Yes, yes life is a fairy tale
And it's good
